

Install Minio AIStor

<https://www.min.io/download>

Install/Update Script

```
#!/bin/bash
if [ $# -eq 0 ]; then echo "Filename missing, Example: minio_20251220045837.0.0_amd64.deb";
exit 0; fi
curl https://dl.min.io/aistor/minio/release/linux-amd64/$@ -o ./@$@
curl https://dl.min.io/aistor/minio/release/linux-amd64/$@.sha256sum -o ./@$@.sha256sum
sha256sum -c @$@.sha256sum
if [ $? == 0 ]
then
    echo "Checksum ok, updating minio"
    dpkg -i ./@$@
    systemctl daemon-reload
    systemctl restart minio
    sleep 3
    systemctl status minio
else
    echo "Checksum mismatch, aborted!"
fi
```

How to use the script
